Fund Overview

The Fund

Duff & Phelps Utility and Corporate Bond Trust Inc. (the "Fund"), a diversified closed-end investment company, first offered its common stock to the public in January of 1993.

Investment Objective

The Fund's investment objective is high current income consistent with investing in securities of investment grade quality. There can be no assurance that the Fund will achieve its investment objective.

Portfolio Contents

The Fund seeks to achieve its investment objective by investing substantially all of its assets in a diversified portfolio of Income Securities. As specified in the Fund's prospectus, Income Securities consist of Utility Income Securities, Corporate Income Securities, Mortgage-Backed Securities and Asset-Backed Securities (each as defined in the prospectus). In normal market conditions, at least 80% of the Fund's total assets must be invested, in the aggregate, in Utility and Corporate Bonds, and at least 25% of the Fund's total assets must be invested in Utility Income Securities.

Leverage

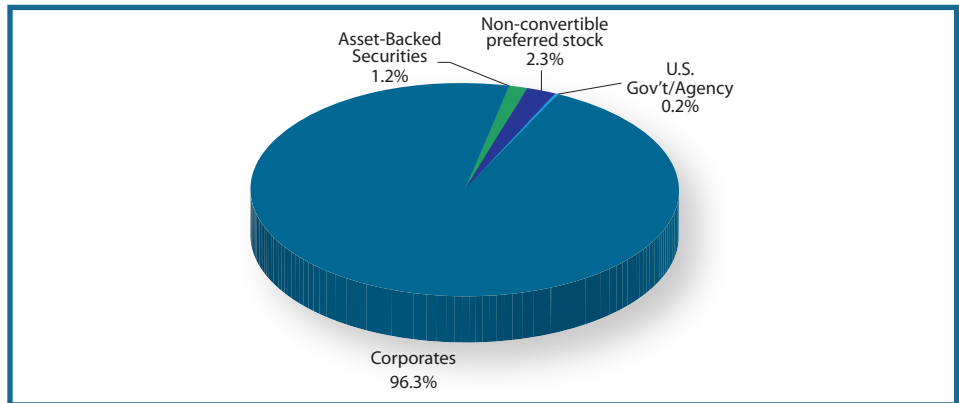

The use of leverage enables the Fund to borrow at short-term rates and invest at long-term rates. As of September 30, 2011, the DUC Fund's leverage consists of Auction Market Preferred Shares ("AMPS") in the amount of \$95 million and senior debt in the amount of \$95 million. On that date, the total amount of leverage represented by the AMPS and senior debt constituted approximately 38% of the Fund's total assets. The use of leverage involves certain risks for common shareholders, including higher volatility of both the net asset value and market value of the common stock.

There can be no assurance that the Fund will achieve its investment objectives. Past performance is not indicative of future results.

Shares of closed-end investment companies such as the Fund trade in the market above, at, and below net asset value. This characteristic is a risk separate and distinct from the risk that the Fund's net asset value could decline. The Fund is not able to predict whether its shares will trade above, below or at net asset value in the future.

This information does not represent an offer, or the solicitation of an offer, to buy or sell securities of the Fund. For additional information please see the Fund's most recent semi-annual report.
